OUR PRINCIPAL'S

TO THE CLASS OF 1970:

We wish to congratulate the staff of the Echo, along with the Class of 1970 for the publication of this yearbook. It is truly representative of this class and our institution.

A few years ago, I read a short book entitled, HOW TO CLIMB HIGH -- GO FAR -- and ENJOY THE GOING. The title will more than likely stir your imagination at this time. So I'm taking this opportunity to repeat for you five or six rules which I thought worthy of digesting.

BOARD OF EDUCATION

MESSAGE

1. Get used to hard work.
2. Set your own pace.
3. Be realistic in your goals.
4. Guard against a false sense of failure.
5. Remember that happiness will not come qutomatically.

You will note that these rules don't seem as glamorous as the title, but maybe "things are not always as they seem."

However, if there be any merit in these rules, we trust that you will think on them. After all, they could help you "Go Far and Enjoy the Going".

May you be a blessing to all whom you contact.

Your friend,

Everything that makes Shaw unique and an exciting place in which to study, learn and grow cannot be accurately portrayed through words or pictures.

The Shaw Plan of Education is to provide a solid liberal arts education which allows students to progress at their own pace. Students with top scholastic abilities are not bound to a schedule of learning geared to the average student. Students who are weak in certain subjects are allowed to spend additional time improving their abilities in these areas.

Having recently passed the one-hundredth year mark, Shaw University has long since gained its maturity in the field of Higher Education. The Shaw Community looks with pride upon past achievements and with hope and enthusiasm toward an exciting future.
